

Animalympics

Protecting our native species together:

The RSPB is a registered charity: England and Wales no. 207076, Scotland no. SC037654

Learning Objective

- To explore and compare athletic differences between humans and animals.

Steps for Success

- To debate findings and award medals to the most deserving animals.
- To design your own gold medal winning animal based on adaptations.

DISCUSS

- In pairs, decide which of the following is the most important when competing in a sporting event
- Speed
- Distance
- Strength
- Endurance
- Skill
- Explain why you think this is the most important.

Welcome to the Animalympics

- You have been chosen to compete in the Animalympics
- Your job is to find or design an animal that would beat a record-breaking human in a race.
- Your animal must belong to the same category as the human: Land, Sea or Air.
- Fill in your contender card with your chosen animal, as illustrated on the following slides.
- In groups, decide which animal in your category deserves a gold, silver or bronze medal

Good Luck!

Contender Card

The flag of the athlete's country

The name of the event

Their record
speed/distance/time

Draw or stick a picture of your animal here

Find the flag of your animal's country

Who has won in your event?

In event groups, decide which of your animal contenders deserve gold, silver or bronze medals

Who has won overall?

As a class, gather all of the gold medal winners in each event together and decide who deserves the overall gold, silver and bronze medals.

How did you decide?

- Was there a clear winner?
- Did everyone agree?
- Which were the most/least important factors?
- Which medal was the easiest to pick?
